

Cognitive Therapy Powered By BCAT® - Prescriptive Treatment Protocol: Mild

Instructions: Each session, start with **The BCAT® Working Memory Exercise Book - Professional Edition (WMEB – Professional)** exercises. Education around the importance of brain health, accessing free brain health resources via the **ENRICH® Brain Health** program website, and prescribing a cognitive home program for each participant are core components of the **BCAT® Approach**.

BCAT® Scores: 25 - 33

Session	Primary Therapy Intervention <i>BCAT® Test System & WMEB - Professional Edition</i>	Supplemental Therapy Interventions <i>BrainSharp™ and the Digital Working Memory Exercise Platform</i>	Patient Responsibility <i>WMEB - Home Edition *Home Exercise Program</i>	Notes/Tips
